v. Lindsay telegraphed the State national problem, and to-night he was swaiting a reply to his request that the State be relieved of responsibility for the charges thrust upon it by Arizona. Apparently responsibility for the deportation was fixed to-day when Gen-eral Superintendent F. B. King of the El Paso and Southwestern declared in Douglas that Walter Douglas, a vice-president of that road, had instructed him to transport the men to Columbus. Douglas is a leading official of the Phelps-Dodge Corporation, which is heavily interested in Bisbee mines. The idea in taking them to that point was to force their care onto military authori-

ties stationed there, King indicated.

The situation here to-day was a queer one. The commander of the troops nere confined his efforts to preserving order and carrying out the dictates of human-ity in seeing the deported horde did not suffer from hunger. The former Bis-becans were left pretty much to themseives and those with money besieged the little telegraph office, with telegrams of protest to State officials, telegrams sking for aid and telegrams notifying their families, some of them in Bisbee.
